Wolkerstorfer Company Is One Of The Top Finishing Shops In North America for 2020

***Products Finishing* magazine names Wolkerstorfer Company to its 'Top Shops' list**

CINCINNATI, Ohio - Wolkerstorfer Company has been named one of the best finishing shops in North America, according to an industry benchmarking survey conducted by *Products Finishing* magazine, a trade publication which has covered the industry since 1938.

The magazine conducted an extensive benchmarking survey that analyzed hundreds of finishing companies in several different areas, including Current Finishing Technology, Finishing Practices and Performances, Business Strategies and Performances, and Training and Human Resources.

Only the top 50 shops were given the honor of being a *Products Finishing* magazine 'Top Shop' based on a scoring matrix in those four criteria.

"Wolkerstorfer Company has established itself as one of the best finishing operations in the industry," said Scott Francis, editor *Products Finishing* magazine. "The criteria we used was very stringent, and only the top finishing shops that excelled in all four areas made the list. Wolkerstorfer Company is in rare air when it comes to finishing operations."

Wolkerstorfer Company is located at 348 First Street SW, New Brighton, Minnesota and offers Nadcap certified Fluorescent Penetrant Inspection, Stainless Steel Passivation, Chemical Conversion Coatings, Anodize, Paint and Dry Film Lubricants.

"We are extremely excited and pleased to be named one of *Products Finishing* magazine's 'Top Shops'," said Steffen and Chris Wolkerstorfer, owners of Wolkerstorfer Company. "Our employees and management team have worked very hard to be the best in the industry, and to provide our customers with quality service."
